

Ram R. Sharma

Backend Developer (PHP | Laravel | APIs | AWS)

✉ sharmaram10298@gmail.com ☎ 8779169391 📍 Mumbai, India 🔗 LinkedIn 🐙 GitHub

PROFILE

Backend Developer with 2+ years of experience building scalable REST APIs using Core PHP, Laravel, and Node.js. Experienced in developing high-performance backend systems, real-time applications, and mobile API integrations. Skilled in AWS deployment (EC2, S3, RDS), database optimization, and secure authentication systems. Currently working on real-time movement-based virtual navigation systems. Open to remote opportunities and flexible with international time zones.

PROFESSIONAL EXPERIENCE

Backend Developer - TagDog Media Pvt. Ltd. / Neoxuse Spotly Media LLP

Mumbai

May 2024 – Present | Mumbai

LOCOMATE App (Virtual Walking Mall)

Tech: **Node.js**, REST APIs, GPS Tracking, **Real-time** Systems

- Developing backend APIs for a real-world locomotion-based virtual mall application
- Built **Node.js APIs** to process real-time user movement data (GPS, steps, heading)
- Designed coordinate-mapping logic to convert real-world movement into virtual indoor navigation
- Implemented APIs for indoor routing, store discovery, and dynamic path updates
- Handled real-time movement tracking and continuous position updates

SPOTLY App

Tech: Core PHP, MySQL, Firebase, AWS

- Developed and maintained scalable backend systems for high-traffic entertainment applications
- Built and optimized secure REST APIs with **JWT authentication** for mobile and web integration
- Integrated MySQL databases and optimized queries for performance
- Deployed and managed applications on **AWS (EC2, S3, RDS)**
- Configured and managed hosting environments using cPanel and WHM
- Implemented real-time notifications using **Firebase Cloud Messaging (FCM)**
- Improved backend performance, scalability, and user experience

Backend Developer - Hands in Technology

Mumbai

Dec 2023 – May 2024 | Mumbai

- Developed backend systems using **PHP (Laravel)**
- Built REST **APIs** and integrated **MySQL** databases
- Implemented **authentication** and backend logic for web applications
- Managed hosting and domain configuration using **cPanel** and **GoDaddy**
- Followed clean code practices using **SOLID** and **DRY Principles**

SKILLS

PHP	Laravel
CodeIgniter	CakePHP
Python	FastAPI
Django	Node.js
Express.js	RESTful APIs
Javascript ES6	Bootstrap
OpenAI / ChatGPT	GitHub Copilot

PROJECTS

Agmine

Tech: Laravel, MySQL, Razorpay

- Developed complete system including frontend, backend, and admin panel • Integrated Razorpay payment gateway • Built dynamic features using AJAX and JavaScript

CMM News

Tech: Laravel

- Developed home page module and admin panel • Managed backend logic and content flow

Italy Tour App

Tech: Laravel, MySQL

- Built backend APIs and admin panel for travel application • Managed user data and application flow

Interview Management System

Tech: Laravel, JavaScript, MySQL

- Developed interview scheduling and tracking system • Built admin panel for managing candidates and interviews

EDUCATION

Full Stack Web Development with Python (Django)

Virash Training Institute

2022 – 2023
Mumbai, India

Bachelor of Accounting and Finance

University of Mumbai 

2018 – 2020
Mumbai, India
